

A Caring Community

*We all want the best.
The best doctors.
The latest treatments.
But what if you could have
all that in a caring place
close to home?
You can.*

Massena Memorial Hospital

Quality Healthcare in the Seaway Valley

www.massenahospital.org ♥ 315-769-4200

This affiliation is the only one that can save Massena Memorial Hospital, jobs and healthcare in our community.

- Massena Memorial Hospital and the Town of Massena went through an exhaustive search process and talked to several other hospitals/healthcare systems for a potential affiliation.
- St. Lawrence Health System is the only system willing to invest its own funds. It's stepped up with \$8 million and likely more in ongoing investments in MMH.
- The Governor's office has come through with a \$20 million Transformation Grant that's contingent on MMH becoming part of St. Lawrence Health System.
- According to Massena Town Board member Albert Nicola: "If the referendum does not pass, then the money disappears. The \$28 million disappears, and Massena Memorial Hospital closes." (Source: North Country Public Radio, Aug 28, 2019)

As part of St. Lawrence Health System, Massena Hospital can continue to provide the community with access to high-quality health care for years to come.

- Massena Hospital will be part of a financially strong, high-quality medical system with Canton-Potsdam and Gouverneur Hospitals.
- This will be a partnership among St. Lawrence Health System, the MMH Board of Managers, the local community and the State of New York.
- Quality of care will be strengthened by sharing expertise, joint recruitment of specialists and the infusion of needed, sustainable resources.

Jobs:

- We can work with St. Lawrence Health System to ensure as few layoffs as possible and as good a compensation package as possible for all employees.

Massena Hospital affiliation with St. Lawrence Health System...

Saves jobs!

Saves health care for our community!
